Kozmetika od goji beri

[Goji Berry cream & cosmetics](#)

Description

We are individual producers of goji berries. I own a 1200m2 plantation and I've been working on it for almost 4 years now. It's located in northern Macedonia, nearby Kumanovo, in the village of Klecovce. Our goji berries are produced by methods that comply with the standards of organic farming. We also own a certificate in conversion. We started growing goji berries in 2015. The following year, we came up with the idea to make a face cream, anti-wrinkle cream, face lotion, body milk, body scrub, goji soap, massage oil and goji lip balm. We make these products from dried goji. The cream is 100% natural, without any artificial colors nor parabens. We have partnered with a fellow company, LaSoy, which specializes in making organic, bio products, in order to produce the face cream. The cream will be certified in January next year, 2017.
